EMBEDDING OF SOCIAL PLUGINS

Our website uses buttons for the following social Networks

- facebook, Facebook Inc., 1601 S. California Ave, Palo Alto, CA 94304, USA
- LinkedIn Corporation 1000 W. Maude Avenue Sunnyvale, CA 94085 USA
- Twitter, Twitter Inc., 1355 Market St, Suite 900, San Francisco, CA 94103, USA
- YouTube, LLC, 901 Cherry Ave., San Bruno CA 94066, USA

The buttons show the logos of the individual social networks. However, the buttons are not standard social plugins, i.e. plugins provided by social networks, but links with button icons. These buttons are only activated by deliberate actions (clicking). As long as you do not click the buttons, no data will be transferred to the social networks. By clicking the buttons, you accept communication with the servers of the social network, thereby activating the buttons and establishing the link.

Once clicked, the button functions as a share plugin. The social network then obtains information about the site you have visited, which you can share with your friends and contacts. You need to be logged in to “share” information. If you are not logged in, you will be forwarded to the login

page of the social network you have clicked, thereby leaving the pages of tuev-sued.de. If you are logged in, your “like” or recommendation of the article in question will be transmitted.

When you activate the button, the social networks will also receive the information that you accessed the respective page of our website and when you did so. In addition, information such as your IP address, details about the browser you used, and your language settings may be transmitted. If you click the button, your click will be transferred to the social network and used according to their data policy.

When you click the button we have no control over the data collected and the data-processing operations. We are not responsible for this data processing, nor are we the “controller” as defined in the GDPR. Neither are we aware of the full extent of data collection, its legal basis, purposes and storage periods. Given this, the information provided here is not necessarily complete.

The data will be transmitted irrespective of whether you actually have an account with this provider or whether you are logged in there. If you are logged in with the provider, your data will be assigned directly to your account. Providers may also use cookies on your computers to track you.

As far as we know, these providers store these data in user profiles which they use for advertising, market research and/or demand-oriented website design. This type of analysis is performed (also for users who are not logged in) to present demand-oriented advertising and inform other users of the social network of your activities on our website. You have the right to object to the creation of these user profiles. To exercise your right of objection, please contact the relevant provider.

Please consult the information provided by the following social media sites for details of the purpose and scope of data collection and of further processing and use of the data by the respective social network, and for your rights and privacy settings:

If you do not wish social networks to obtain data about you, do not click the button.

STANDARD PERIODS FOR DELETION OF DATA:

Legislation has defined numerous data storage periods and obligations. At the end of these periods, the relevant data will be routinely deleted. Data that are not affected by the above storage periods and obligations are deleted or anonymized as soon as the purposes defined in this data privacy statement no longer apply. Unless this data privacy statement includes other deviating provisions for data storage, we will store any data we collect for as long as they are required for the above purposes for which they were collected.

OTHER DATA USE AND DELETION OF DATA

Any further processing or use of your personal data will generally only be carried out to the extent permitted on the basis of a legal regulation or where you have consented to data processing or data use. In the case of further processing for other purposes than the ones for which the data were originally collected, we will inform you about these other services and provide you with all other significant information before further processing.

We will store any information for the identification and prosecution of misuse, in particular your IP address, for a maximum period of 7 days. Our legitimate interest in keeping your data for 7 days is to ensure the functioning of our website and the business transacted via this website and to be

able to fight off cyber attacks and similar malicious actions. Where appropriate, we may use anonymous information to tailor the design of our website to user needs.
